

In imagining a Stronger School

Celebration of Life Community, Inc. understands that we accomplish more together. Let's decide that we're going to pull together better meaning; parents, students, teachers, administrators and the community. Yes, Rochester can have a totally revised and favorable report card on our schools. This program is designed to assist with a much better end product coming out of our schools at every level.

Therefore we offer a distinctive approach for parents to get more involved with their child's educational success as we attempt to break the mold and reshape what our educational landscape produces in the Rochester City School District.

Of course there is a learning curve; however, much of the ground work for this has already been laid. This gives us easy access to the persons, places and things we'll need going forward.

Because there is a great need, because we care and because we can. Let's make a big, overdue and favorable difference together.

"We can do more together,
Than we can do apart"

TRUE INTERVENTION PURPOSEFULLY SUCCESSFUL

What is T.I.P.S.?

TIPS is another real way that we come alongside parents and guardians to help them be more successful in helping their child or children succeed in school. This is the second side of the needed, growing and highly successful Help Me Read Program.

Why T.I.P.S.?

The T.I.P.S. program exists to further help our children excel and succeed in school.

Building a strong educational, social and emotional foundation is essential. During these early, critical and formative years in the academic process parental involvement helps children perhaps more than any other single approach. Therefore it is essential that we demonstrate from the grassroots level what can be done and model it.
